# INSTITUTE

Tuesday-Wednesday, April 19-20, 2022 • 12:30-4:45 p.m. CT

## The MSAN Institute

is a virtual, two-day, intensive professional learning opportunity dedicated to growing our understanding of current research and district practices that further racial equity in schools.

As our schools continue to see high levels of student trauma and educator exhaustion, the MSAN Institute will center the mental health of our students and educators as we build our collective knowledge base around MSAN's annual focus area: Equity-Centered Social Emotional Learning and Radical Self-Care. Sessions will also include research-based strategies and promising practices that have demonstrated a significant impact on student academic achievement and sense of belonging. The Institute includes keynote, breakout sessions, job-alike networking groups, and the highlight of all MSAN Institutes— **hearing from our amazing student equity leaders!**

## Suggested Audience

Teachers, principals, and district-level administrators (including directors of teaching and learning, facilitators of equity initiatives, superintendents, and assistant superintendents), student services staff, and family engagement specialists.

**Please visit the MSAN website for more information: [msan.wceruw.org](https://msan.wceruw.org)**

**Questions?** Contact MSAN at [connie.showalter@wisc.edu](mailto:connie.showalter@wisc.edu)
