

University of Wisconsin-Madison

INSTITUTE

Thursday, April 20, 8 a.m -4:30 p.m. & Friday, April 21, 8 a.m.-2 p.m.
Madison Concourse Hotel

The MSAN Institute is a two-day intensive professional learning opportunity dedicated to growing our understanding of current research and district practices that further racial equity in schools.

As schools continue to see challenges with recruiting individuals into teaching, high levels of educator exhaustion and turnover, and minimal diversity among the teaching ranks, it seems particularly important that we center the teacher pipeline and retention as we build our collective knowledge base around MSAN's annual focus area: Addressing the educator shortage crisis while recruiting and retaining a diverse workforce. Sessions will also include research-based strategies and promising practices that have demonstrated a significant impact on student academic achievement and sense of belonging. The Institute includes keynote, breakout sessions, job-alike networking groups, and the highlight of all MSAN Institutes—**hearing from our amazing student equity leaders!**

Suggested Audience

Teachers, principals, and district-level administrators (including directors of teaching and learning, facilitators of equity initiatives, superintendents, and assistant superintendents), student services staff, and family engagement specialists.
